

## **Advanced Wind and Solar: CFTI Key Successes in the 117<sup>th</sup> Congress**

Key recommendations the Carbon Free Technology Initiative (CFTI) advocated for and received:

- Tax incentives for solar expanded to either a 30% investment tax credit (ITC) or a 2.75 ¢/kWh production tax credit (PTC)
- DOE funding to improve photovoltaics research, solar manufacturing, and renewable energy resilience.
- \$50 million for offshore wind research, development, and demonstration
- DOE funding to improve wind turbine composite materials, grid infrastructure and reliability, and offshore research.
- Advanced manufacturing tax credit for PV module and subcomponents, PV inverter, and PV tracking systems.
